Speed Device(s) Update For January 2026

Speed Indicator Device (SID)

The SID has been moved from Catherington Lane to Havant Road (nr Oak Leaf Way). The battery is changed fortnightly and the SID is moved monthly. The graphs from Havant Road (North) are attached.

Key data (w/c 19/01/2025) – Fastest speed recorded 65MPH 22/01/2025 @0505, 10 incidents of 55mph or more, 69% of vehicles are travelling at more than 30mph, 22% are travelling at more than 35mph. Highest number of speeders 0800-1000 and 1500-1600. Vehicle counts 4500-5000 vehicle per day Mon-Fri (3800 Sat, 2900 Sun)

As Andy stated we have been successful with CIL funding for two further SIDs.

Community Speedwatch

SOB Speedwatch did a session on Catherington Lane (opposite the Wellness Spa) which resulted in 12 speeders being caught (29/01/2026 2-3pm). They will be receiving letters. I attended this session.

The February we have 8 sessions in February including London Road and Rowlands Castle Road in Horndean, 3 in Clanfield and 3 in Rowlands.

We have yet to hear more about the additional roadside locations I have submitted for consideration.

Auto Speedwatch Cameras – monthly update.

When I have completed archiving our data and canned reports to a shared drive I will decommission the cameras. This needs to happen before our data connection drops in March.

.
